## MINUTES OF THE SIXTH MEETING

### OF THE TENDER EVALUATION COMMITTEE FOR DAUDHAN DAM

The Sixth meeting of the Tender Evaluation Committee for Daudhan Dam under Ken-Betwa Link Project was held through video conference on **19<sup>th</sup> December 2023 at 11:30 AM** to discuss the requests made by the multiple prospective bidders for grant of extension of time for submission of the bids, ranging from two to six weeks beyond the present 20 December 2023. The list of participants is annexed.

The TEC was apprised that a number of prospective bidders had raised certain issues like time taking process in finalising the Joint Venture partners /subcontractors/manufactures and getting the offers/quotes from overseas suppliers. Some of the bidders have drawn the attention on the complexities and limited availability of the data that demand more time for collection of additional data to optimize the diversion scheme and the design of dam with meticulous attention, particularly in light of the fact that the contract is an EPC contract. Besides, a few new companies have also expressed the interest in participating in the process and requested to allow them some time for submission of their bids.

The TEC made a detailed deliberations on these requests and felt that though extensions of time have been granted earlier too , this being an EPC contract, requires careful consideration and planning to obtain a competitive and meticulous proposal. This can avoid complexities at the later stage. Moreover, in light of more bidders which have shown interest , it would be prudent and in the best interest of the project, if wider participation is allowed to ensure competitiveness and fair price bid. Accordingly, it was decided to extend the last date of submission of bid to **18<sup>th</sup> January, 2024** and directed KBLPA to issue the corrigendum.

The meeting ended with a vote of thanks to the chair.
