**MINUTES OF THE NINTH MEETING**  
**OF THE TENDER EVALUATION COMMITTEE FOR DAUDHAN DAM**

The Tender Evaluation Committee for Daudhan Dam under the Ken-Betwa Link Project (TEC) held discussions with the prospective bidders in the 2<sup>nd</sup> Pre-Bid Meeting held on 1<sup>st</sup> February 2024 at 11:00 AM at Bhopal. During the Pre-bid meeting, the queries raised by bidders were addressed and the suggestions made by them were noted for deliberations. The List of participants is enclosed.

Following the Pre-bid meeting, the TEC held its Ninth meeting at 03:00 PM at the same venue. The Committee deliberated upon the suggestions and queries made by the prospective bidders.

At the request of several bidders, the TEC reconsidered the pre-qualification criteria of the height of the concrete and earthen dam. It was brought out to the TEC that the ICOLD prescribes the large dam as the dam with a height of 15 m from the deepest foundation level to its crest. The TEC felt that the same may be adopted as the qualification criteria for the concrete dam and the embankment dam with the condition that such the concrete dam shall necessarily have a gated spillway and instrumentation, inspection and foundation galleries. This will ensure increased participation of the bidders experienced in the requisite field. However, the TEC held that the experience in the construction of the barrage is not relevant in the present tender and need not be included as suggested by a few bidders.

The TEC discussed the written queries/suggestions received from the prospective bidders and the response to the same is compiled in the enclosure. Some of the suggestions necessitated the amendments which had been compiled as Corrigendum-8 as enclosed. The TEC directed that the same be uploaded to the portal.

The meeting ended with a vote of thanks to the chair.
